HARDWOODS, INC.

2026

“QUALITY” – Countless unseen details are often the only difference between average and magnificent.

Crystal Valley Hardwoods is nestled in the heart of northern Indiana’s Amish woodworking region and has been producing quality hardwood furniture since 1997. With many styles to offer, our focus is on the details of design. Each piece is skillfully constructed by experienced craftsmen who share the rich heritage of woodworking. We value our customers, old and new, and work diligently to build and maintain long-term relationships. Our goal is to provide 100 percent customer satisfaction and to be better by design.

Benefits of Quarter Sawn

Crystal Valley Hardwoods specializes in furniture made from quarter sawn white oak. Quarter sawn is a special way of cutting the wood to expose the grain in a different way. Quarter sawn oak is dense and doesn’t shrink or contract as much as regular oak or cherry. It also resists denting better than other woods.

The Nature of Wood

Wood is wood. We do not guarantee a certain amount of quarter sawn ray flake in any one given piece of furniture. Although we have an excellent source for great character and quality of quarter sawn oak, you will see some straighter grained wood and also wood with max flake. We can’t control that because that’s the beauty of natural wood.

Stain Variation

Please note: Stain colors may vary from images in catalog. We strive for accuracy, but due to inconsistencies in photography and printing, the color may not be exactly as shown.

Manufacturers of the highest quality occasional furniture. Specializing in Mission styles created from quarter sawn white oak.
