Founded in 1973, Schrock's Furniture is now on its third generation of building quality hardwood furniture for homes across North America. Our legacy is building quality hardwood furniture that lasts for generations. We do this by only using premium hardwood and plywood for each structural component of our furniture. Our dovetailed drawer boxes are built in-house using spalted maple for a unique appearance. Each piece is then finished out with quality drawer slides and hinges to ensure that the hardware lasts as long as the wood.

Schrock's also strives to provide top-notch customer service by building relationships with our dealers and, in turn, their customers. Building these relationships continues to motivate us forward as we interact with each individual. Much to our delight, our conversations consistently result in discovering new furniture designs and refining our methods of service. We welcome suggestions of ways where we can continue moving forward together.

Working with wood is a constant delight as we carefully evaluate each piece to discover the best way of utilizing it, then process it to maximize its use. Since wood is a natural product, each piece contains color and grain variations that will come through on your furniture. These natural characteristics give each piece of solid wood furniture its unique charm. Although the finish process is identical, no two pieces are the same, making your piece of furniture unique to your home.

Thank you for trusting your bedroom furniture to Schrock's. We look forward to working with you to bring your dreams to life.

DRAWER INTERLOCK SYSTEM

Our interlock system prevents cabinet tip-over by only allowing one drawer to be opened at a time.

INTERLOCK POSITIONS

INTERLOCK NEUTRAL POSITION

The position of the Interlock in the neutral position with a closed drawer.

INTERLOCK LOCKED POSITION

When a drawer is opened the **A** LATCH rotates and lifts the **B** LOCK preventing other drawers from opening.
